

Design features:

- Rugged one-piece molded Co-Polypure™ construction.
- Large size to accommodate front load washers.
- Side outlet solvent weld 1" DWV 90° elbow fitting (furnished), mounts to the pan bottom for a center drain connection; or through the side curb for connection to a remote drain using 1" piping (not included).
- Remains stationary, can be easily secured to floor (hardware included).
- Easy to install and clean.
- Mildew-resistant, colorfast semi-gloss white finish.

Installing Side Outlet Fitting

Drill 1-3/8" dia. hole on side or bottom surface of DURAPAN™ and install fitting as shown. Position DURAPAN™ and connect solvent-weld fitting to 1" PVC pipe (not provided) leading to drain pipe. Place wash machine inside DURAPAN™ to complete installation.

Contents: Washing machine pan and 1" PVC drain fitting.

Specifications:
